The Exodus Road will be a leading anti-human trafficking organization in its six countries of operation, employing three primary solutions to create systemic change and reduce vulnerability.

## HOW DO WE GET THERE?

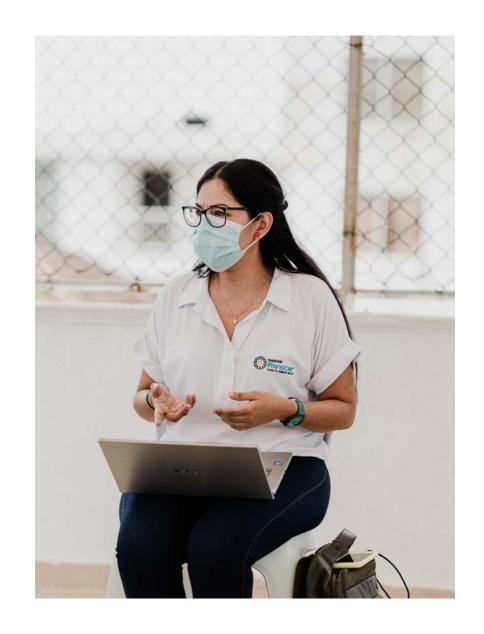

We will leverage our expertise and choose not to work alone. We will focus on our strength in each country and partner with organizations that have a different specialization in one of the *three primary solutions*.

# VALUES FOR PARTNERSHIP

### The partner organization:

- Has a complementary specialization in one of the three primary solutions.
- Is survivor-focused, giving dignity.
- Empowers local authorities.
